KITCHEN RENOVATIONS

We know that a kitchen is more than just a room where meals are prepared. The kitchen is the heart of the home where families begin their day, cook together, eat together and make memories.

Every step of the way White Oak Builders, Inc. provides expert professional guidance. With a White Oak kitchen renovation, you can:

- ✓ Tailor your kitchen to fit your life
- ✓ Select colors, materials, and elements that update the look of your kitchen
- ✓ Experience our worry-free building process
- ✓ Have a hands-on, organized and budget-conscious home builder at your side

FACTORS THAT IMPACT COMPLEXITY, TIMING AND COST

We want you to feel prepared for discussing your project in more detail. Below are a set of items that can impact your project bottomline and timeframe. Thinking of these items ahead of time can give you more insight into your kitchen project needs and wants.

- How extensive of project is it?
 - › Remodel: changing the functionality, design and layout - most intensive
 - › Renovation: reconfigures space, updates look or brings back to life
 - › Refresh: aesthetic update that utilizes existing layout and key elements
- Quality level and availability of new materials:
 - › Cabinet tier and layout
 - › Countertop and backsplash material
 - › Flooring material quality
 - › Trim work material and complexity
 - › Appliance brand and tier
- Do your expectations and tastes match your budget
- Age and type of major mechanical systems:
 - › Electrical
 - › Plumbing
 - › HVAC Systems
- Age and type of home:
 - › Foundation type and structural integrity
 - › Issues with mold, asbestos, insects, lead
- Previous contractor or DIY Work:
 - › How old is the work?
 - › Was it done correctly?
 - › Is it up to current building codes?
- Changing design plans mid-project
- Changing material choices mid-project
